NYSE

Good health is what it's all about.

Setting clear goals keeps me on track and actually helps me get to where I want to be faster. For example, I start each day with a healthy meal—a nutritious Formula 1 shake. By consciously taking care of my health, I know I'll reach and often surpass—my goals. And what better goal is there than good health?

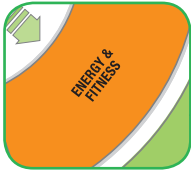

That's why I'm excited to introduce our newest products to help you and your family achieve optimal health. Our kids' line includes great-tasting shakes with no artificial sweeteners or colors, giving children the nutritional edge to grow healthy and strong. And our Energy Drink mix helps keep you energized for an active day.

Today, make better health your family's number one goal. We can help you achieve it. And when you do, you'll join the millions of people around the world who already use Herbalife products to look, feel and live better than they've ever dreamed.

Yours in good health,

Michael O. Johnson

and Innovation

Maximize Your Health with Cellular Nutrition.

SCIENCE

Through Cellular Nutrition, healthy nutrients help nourish your cells with our exclusive blends of nutrients that provide vitamins, antioxidants and minerals to support cell function. In this way, our products deliver healthy nutrients to cells throughout the body, as part of a healthy diet. Cells are the basic unit of the human body, providing the power for everything you do—from thinking to growing. For example, our products are formulated to support healthy villi, the tiny finger-like structures along the intestine wall that act as “gatekeepers,” helping your body absorb more nutrients, vitamins and minerals, while protecting you from toxins. The healthier your villi, the more efficiently your cells can absorb nourishment—and the healthier you’ll be.

Herbalife maximizes Cellular Nutrition through unique, scientific formulations. It’s the select blends of high quality ingredients and the methods used to preserve their nutrient value. It’s the way we personalize programs to address each individual’s needs... it’s the Herbalife advantage.

I always wanted to be a rich and benevolent person. After being in the office automation business for 10 years, I was fat, unhealthy and with lot of debts. After a few more failures in different business ventures I witnessed a Herbalife meeting and I was impressed with the product results. I reduced 6kgs in 26 days on Herbalife products.

I made it a point to attend every possible trainings that Herbalife offered and slowly, my life started changing. Today I am a proud owner of luxury cars, plush offices and beautiful landscaped houses in Mumbai. I spend more quality time with my son and enjoy my fatherhood.

With Herbalife not only can you achieve all this, but much more. My team is my pride and I am thankful to them. Now I know for sure that dreams can come true only with Herbalife!"

He worked part time in a school, trying to make ends meet with mere income of US \$100. He responded to the newspaper ad and attended a HOM. Completely impressed by the income results he decided to sign up.

He was a World Team when he came to India in the year 2001 and made his business base in the North-East. By July 2003, he was able to develop an excellent team of seven first lines and with their help he qualified for GET. His wife, Mitali Goswami Trochin was his first line Supervisor during World Team days. They worked together and initiated the system of "2 Days Business Seminars", which became an important instrument for their next qualifications. She soon resigned from her job as an Analyst in a leading telecommunication company, and started to work full time with Herbalife. They qualified for President Team in September 2005.

Today Herbalife has given them everything in the form of money, time, status, health, happiness, an extraordinary life and a shining future ahead with their three children.
